

## FIRSTLIGHT SIGNATURE SERVICE

### SIGNATURE OF THE WEEK

February 29<sup>th</sup>, 2008

### SIGNATURE NAMES

```
_DOWText.pvcalendar.SymantecBackupExecCalendar.ActiveX.Buffer.Overflow.A  
_DOWText.pvcalendar.SymantecBackupExecCalendar.ActiveX.Buffer.Overflow.B  
_MonthText.pvcalendar.SymantecBackupExecCalendar.ActiveX.Buffer.Overflow.A  
_MonthText.pvcalendar.SymantecBackupExecCalendar.ActiveX.Buffer.Overflow.B
```

### DESCRIPTION

Symantec Backup Exec is a data recovery solution for Windows Server.

Symantec Backup Exec ships with an ActiveX control that is vulnerable to multiple buffer overflow vulnerabilities that could be exploited to take over a vulnerable system. Successful exploitation would require that the victim is enticed into visiting a malicious web page.

The Endeavor signature for this vulnerability will trigger on use of the vulnerable class identifiers and properties.

### IMPACT

User Assisted Remote Code Execution
